Full Name: Varun Sharma

Assignment Number and Name:

Task 1 – IAM Users, Groups & Password Policy Configuration

Submission Date: 07 July 2026

AWS Region Used: us-east-1 (N. Virginia)

Step 1 – Created Developers Group

Action

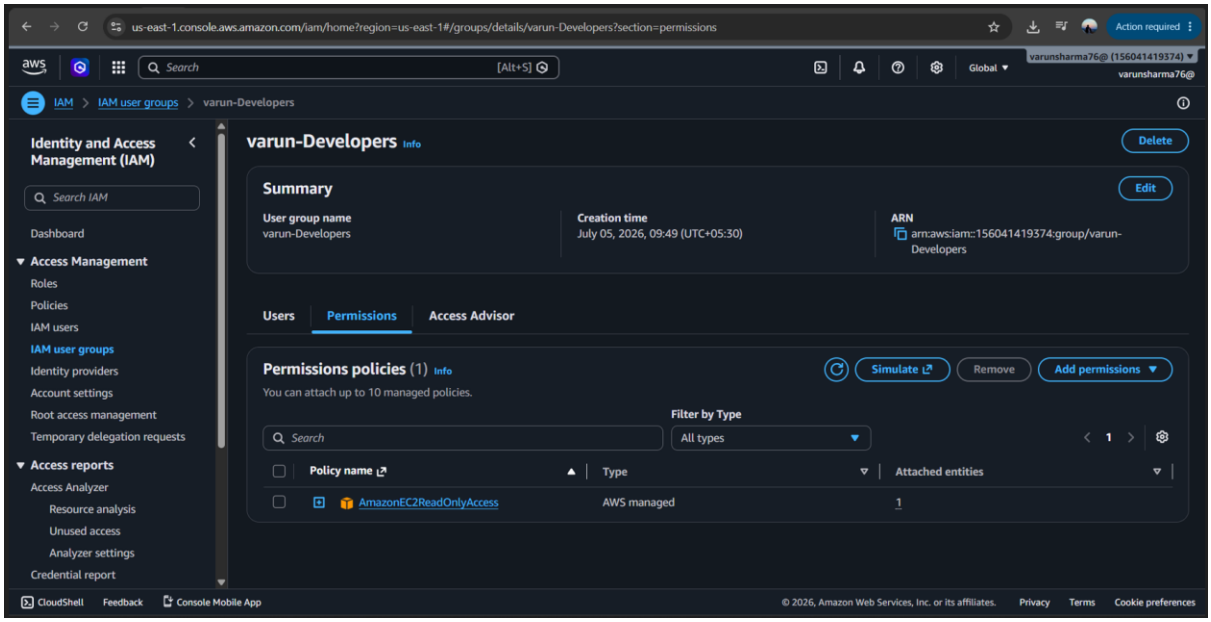

Created an IAM user group named varun-Developers.

Explanation

This group was created to provide read-only access to Amazon EC2 resources for developer users.

Output

Group created successfully

Step 2 – Created Admins Group

Action

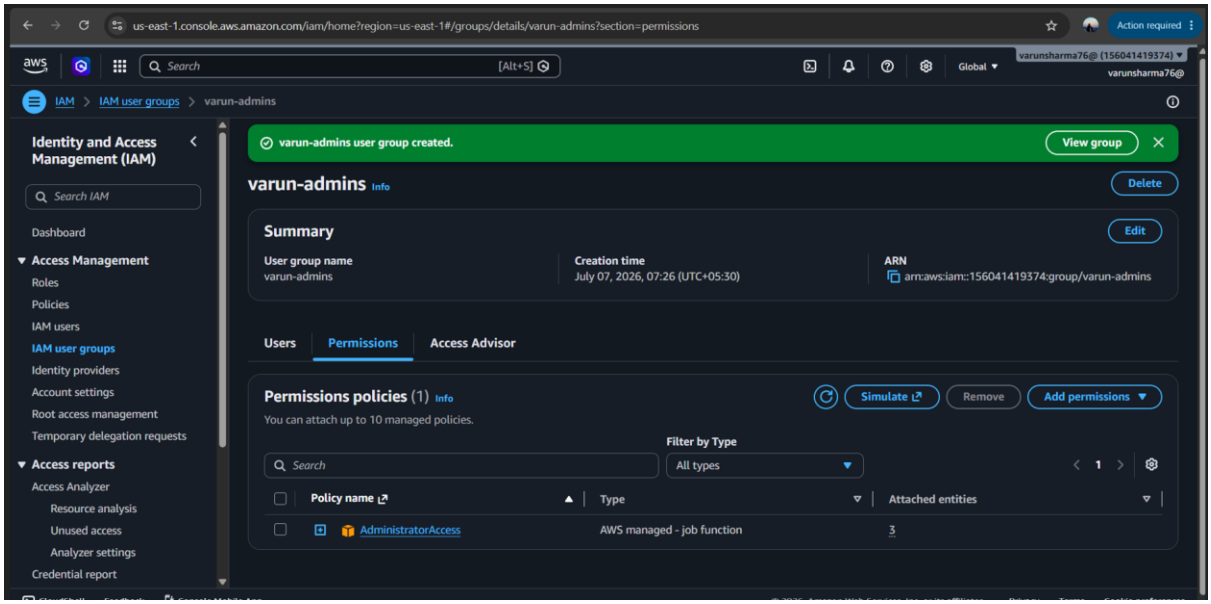

Created an IAM user group named varun-Admins.

Explanation

This group provides full administrative permissions to users through the AdministratorAccess policy.

Output

Group created successfully

Step 3 – Created Development User

Action

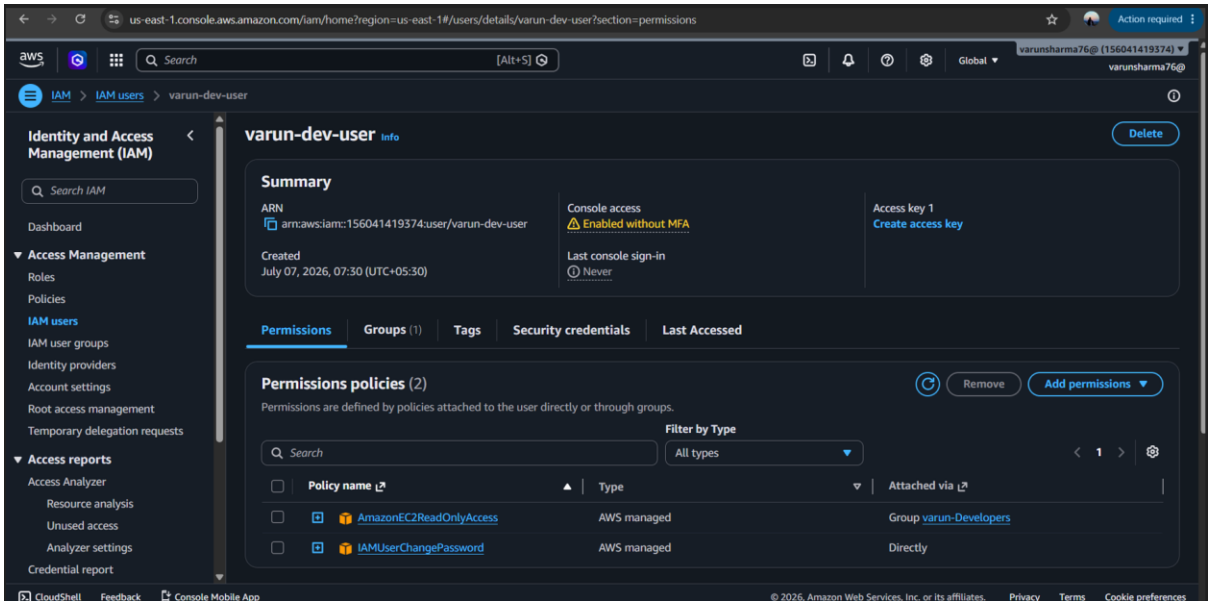

Created IAM user varun-dev-user.

Explanation

Console access was enabled and the user was added to the varun-Developers group.

Output

User created successfully

Step 4 – Created Administrator User

Action

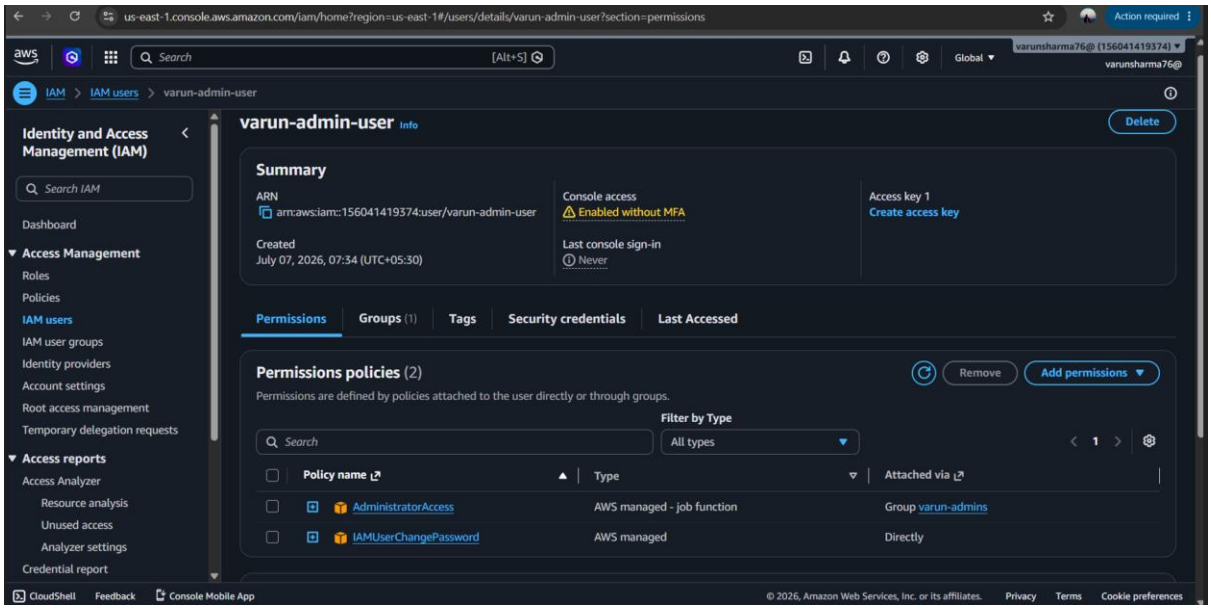

Created IAM user varun-admin-user.

Explanation

Console access was enabled and the user was added to the varun-Admins group.

Output

User created successfully

Step 5 – Configured Password Policy

Action

Configured the IAM account password policy.

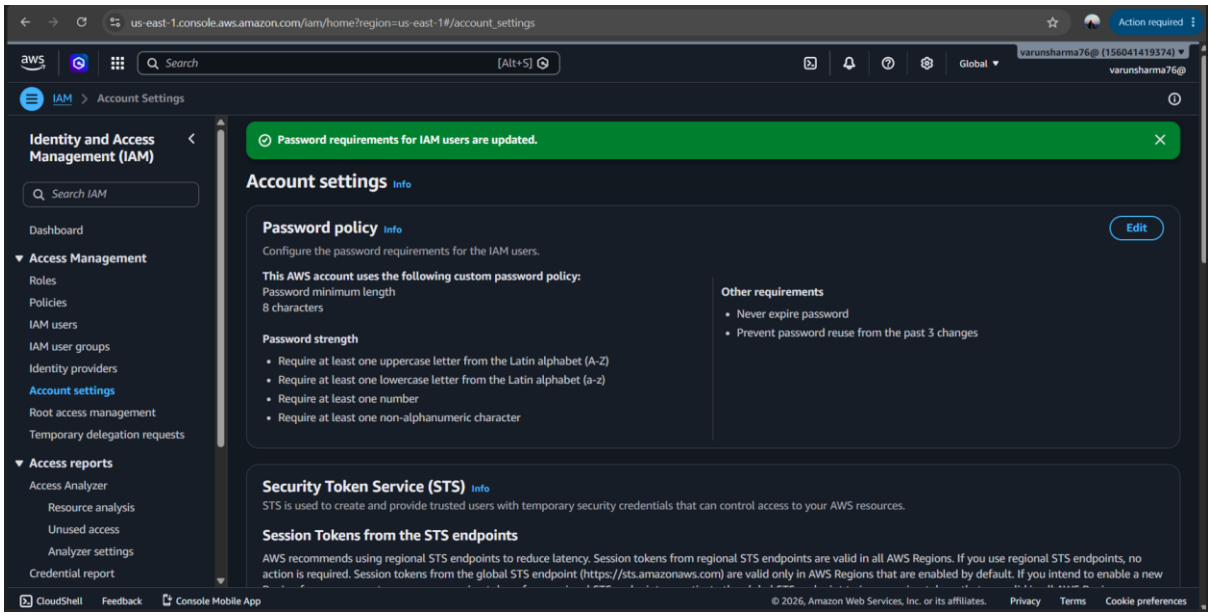

Explanation

Password policy was configured to require:

- Minimum 8 characters
- Uppercase letters
- Lowercase letters
- Numbers
- Symbols
- Password reuse prevention

Output

Password policy updated successfully

Step 6 – Verified Read-Only Access

Action

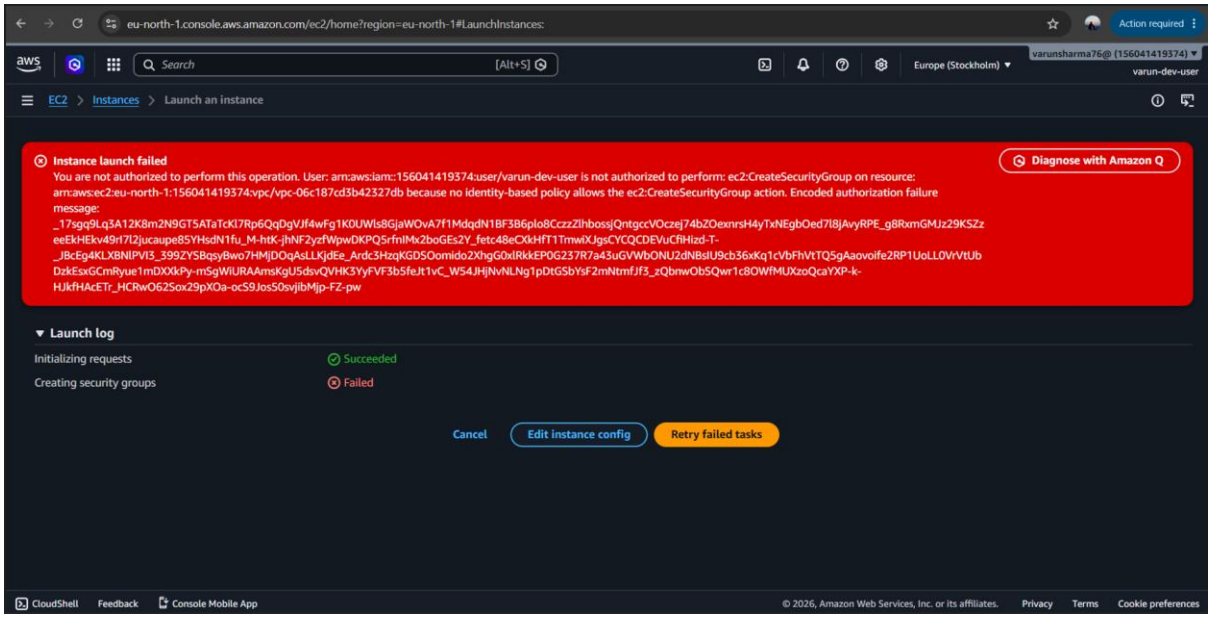

Logged in using varun-dev-user.

Explanation

Verified that the user could access the EC2 console but was not authorized to launch an EC2 instance.

Output

AWS displayed an **Access Denied** error while attempting to launch an EC2 instance.

Step 7 – Credential Report

Action

Generated and downloaded the IAM Credential Report.

Explanation

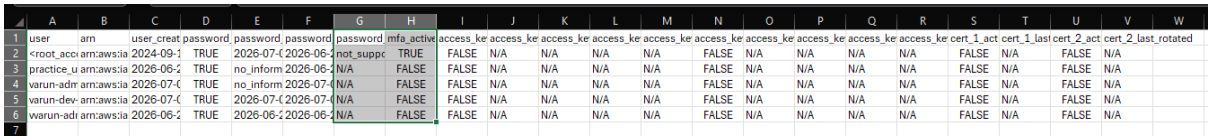

Verified IAM user credential information including MFA status and password usage.

Output

Credential Report successfully generated and downloaded.

Observed columns:

- mfa_active
- password_last_used
